JSC Asmodas is a company with over 23 years of experience in the door business.

Technologically advanced and easily adaptable to the environment and historical context, our composite doors becomes a real discovery for ambitious architects, innovative construction companies, old building restoration companies, new project developers, homeowners.

Today the export share is 70% and it includes sales to Sweden, Denmark, Norway, Germany, France, The Netherlands, Great Britain, Ireland, Latvia, Estonia, and Kazakhstan.

Since 1999 JSC Asmodas has been focusing on the development of its production, especially of the apartment security entrance doors and exterior entrance doors; as a result whereof, the company has launched a new production facility of 4300 m², a new CNC metal mill and new wooden works technology, as well as implements quality management systems ISO 9001 and ISO 14001.

In order to ensure the quality of our products, we test the properties of the doors only in certified and/or notified laboratories. All Asmodas doors

hold the burglar proof certification (RC 3 and RC 4) following the LST EN 1627:2011 European standard. Doors are certified as airtight (class A) and/or watertight (class E), sound-proof (from 42 to 45 dB R_w (C; Ctr), fire resistant (EI30 and EI60) and fire gas tight (class S_a, S_m). And this is only a small part of the carried out tests.

Today about 80 people are employed in the company within production, assembly, maintenance, and client service, which is the most important for the company this day to make sure that every need of the client is met. The production of Asmodas is situated just outside Klaipeda in western Lithuania. The geographical position of Asmodas ensures fast deliveries.

Asmodas is both engaged in mass production of doors as well as smaller quantities, but the company always maintains the quality of the product. The greatest quality of Asmodas is flexibility in working individually with each client, ensuring the production of non-standard goods, special design, as well as giving flexible terms resulting in high technical level and long-term guarantee. JSC Asmodas motto - high quality at a fair price.
